City Manager Coffey,

My name is Tim [redacted], and we live at [redacted] I just wanted to let you know of the outstanding team you have with Kristin, Dana, and Laura in the park and recreation program. Our children, [redacted], [redacted], and [redacted] were signed up for swim lessons this summer. This would have been our third year of participation in this very exceptional program. Unfortunately, I had to go overseas with them, and we got stuck much longer than expected and missed the swim lessons. Kristin understood that this was very unique, and helped us transition back by refunding our money. I just wanted to let you know they are truly exceptional, and we hope to be back swimming again next summer.

Best Regards,
Tim

CITY COUNCIL MEETING

City of Indian Harbour Beach, Florida

Tuesday, August 11, 2026

AGENDA ITEM

Public Hearing of Resolution No. 26-06 Adopting the Annual Stormwater Utility Non-Ad Valorem Assessment Rate for FY27 (2026-2027)

Cost: N/A

Attachments: Resolution No. 26-06, assessment roll summary, and assessment roll

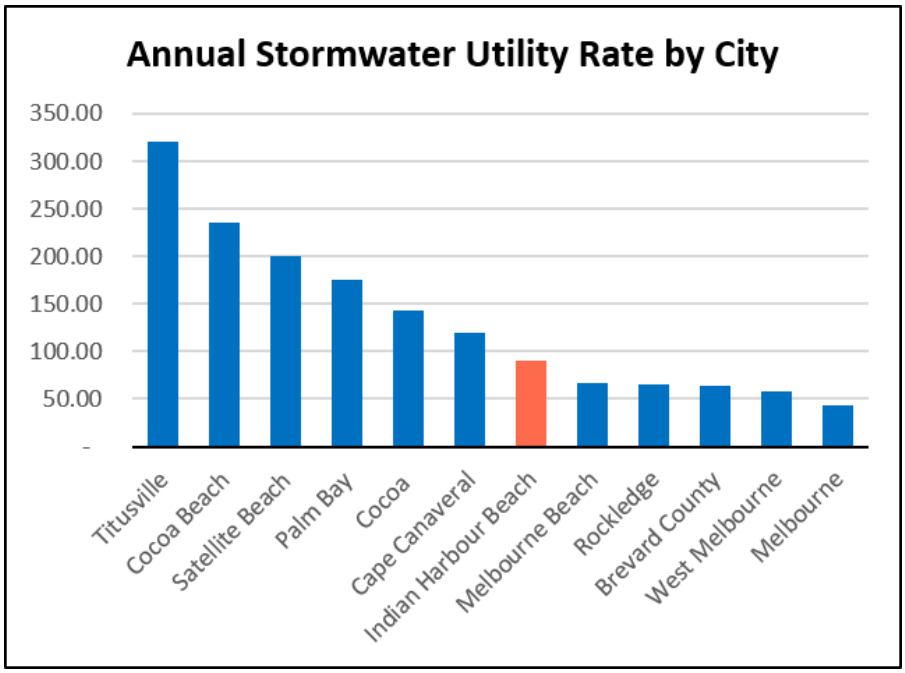

Staff Recommendation:
Consider holding a Public Hearing on Resolution No. 763, ratifying and confirming the assessment roll, and adopting the Annual Stormwater Utility Non-Ad Valorem Assessment Rate for FY27 (2026-2027).

Background Information:
In 1992, the City of Indian Harbour Beach adopted Chapter 16.5, creating a municipal Stormwater Utility Code and a non-ad valorem tax program, as authorized by Florida Statutes 403.0893, to fund citywide stormwater improvements and projects to reduce or eliminate pollutants entering the Indian River Lagoon. In accordance with Section 16.5-5 of the Code of Ordinances, the City will hold the annual public hearing before adopting the Stormwater Utility Non-Ad Valorem Assessment for FY27 (2026-2027).

Section 16.5-6(b) of the City Code of Ordinances states:
The City Council shall, at any regular or special meeting held on or before the fifteenth day of September of each year, review the annual stormwater utility assessment roll prepared by the City Manager for its conformity with the rate resolution provided for in section 16.5-5. The city council shall make such changes or additions as necessary to conform such roll with the rate resolution. Upon the completion of such review, if the City Council shall be satisfied that the annual stormwater utility assessment roll has been prepared in conformity with the rate resolution, it shall ratify and confirm such roll and certify the roll to the tax collector for appropriate action.

Recommended for FY27 is the same Stormwater Utility Assessment rate of $90 per equivalent residential unit per year, which will generate (based on preliminary reports) $427,081.17 in gross receipts to address maintenance needs and fund state-mandated pollutant-loading reduction projects. Additionally, $600,000 is budgeted in FY27 to

recognize a grant reimbursement for the City Hall Baffle Box project. As illustrated in the chart to the right, the City's stormwater rate is the 6th lowest in Brevard County.

FY27 receipts are earmarked for the following projects to minimize localized flooding and to continue the City's efforts to improve the water quality of the Indian River Lagoon:

- $10,000 Drainage maintenance
- $1,000 Rain barrel rebate program and Waterfront and Buffer Matching Grant program
- $350,000 Capital improvements
  - $150,000 Big Muddy seawall replacement (2nd to last year of the phased project)
  - $100,000 CCTV inspections of pipes/slip lining of pipes
  - $50,000 Pipe repairs – TBD
  - $50,000 School Road drainage
- $650,884 Reserves (to balance the annual budget and fund roll-forward projects)

The reader should note that the following roll-forward budgets are planned to be added to the FY27 Budget in November 2026:

- $75,000 CCTV inspections of pipes/slip lining of pipes
- $175,000 School Road drainage

Staff recommends that the City Council ratify and confirm the assessment roll and adopt Resolution No. 26-06, implementing the FY27 Stormwater Utility Assessment rate of $90 per equivalent residential unit per year.

The Property Appraiser's Office assigns a number of units and land use code to each individual structure. Each land use code has a calculation factor of either 0.5 or 1.0. An amount for each structure is computed by multiplying the number of units times the calculation factor times the rate. The sum of these amounts for the account is then used in the Bill Class R Calculation.
