JANUARY/FEBRUARY 2026

WELCOME TO 2026 IHB!

Indian Harbour Beach Police Department's Christmas Outreach

To the Indian Harbour Beach Community:

On behalf of the City Council, City Staff, and the Police Department, we extend our heartfelt thanks for your role in making our 40th Annual Christmas Outreach Program such a tremendous success. Thanks to the generosity of so many, our community was able to bring joy to 48 children from 26 families and 11 senior citizens, all right here in Indian Harbour Beach.

This program is made possible entirely through private donations from caring citizens and local businesses, and we are deeply grateful for your support. Special appreciation goes to the students and staff of Ocean Breeze Elementary School, the Indian Harbour Beach Montessori School, and Kinder Care for organizing food drives that helped stock our Christmas Outreach Food Bank.

We also wish to recognize Officer Jen Imperato and Record/Evidence Supervisor Jeannie Hoffhine for the countless hours they dedicated to ensuring Christmas was truly special for many in our community.

CITY OF MELBOURNE TEMPORARY WATER TREATMENT CHANGE SCHEDULED

Beginning Monday, January 5, 2026, and continuing through Monday, January 26, 2026, Melbourne water customers may notice a chlorine odor in their tap water. During this period, the City will be temporarily changing its water disinfection method. This temporary change in water chemistry will not affect the safety of water for drinking.

Chloramine, which is formed from the combination of free chlorine and ammonia, is normally used for disinfection by the City. During the temporary change, free chlorine—**without any ammonia**—will be used.

Changing to free chlorine periodically provides additional protection against microorganism contamination and helps ensure the water you receive remains safe.

You do not need to boil your water, purchase bottled water, or purchase special filtration devices. However, if you are sensitive to the taste or smell of chlorine, you can collect water in a container and place it in your refrigerator for a few hours. This will allow much of the chlorine to leave the water.

For more information, please call the City of Melbourne Water Production Division at **321-608-5700**. You can also find information on the City's website, at www.melbourneflorida.org.
